

34. (New) The molding according to claim 33, wherein the molding is a hose or a seal.

**REMARKS/ARGUMENTS**

Entry of the above-amendment is respectfully requested prior to examination of the application. The above application corresponds to an application originally filed in Japanese. The above amendment revises the application as translated into English to be in a format more closely corresponding to that customarily employed in US patent practice and to eliminate multiple dependent claims and to correct typographical error. New claims 15 to 32 are corresponding to claim 1-14. Support for new claims 33 and 34 can be found in Example 1. Thus, no new matter has been introduced.
